

Realize the Power of GoldMine Anywhere, Anytime

GoldMine® Mobile Edition provides your salesforce with critical, real-time information via their BlackBerry® smartphones. Removing the need for remote synchronization – permanently.

GoldMine Mobile Edition turns your BlackBerry smartphone into a powerful CRM system, giving you mobility options while ensuring you never miss a sales opportunity.

On the move...

GoldMine Mobile Edition puts contact information, interaction history, calendaring and other tools into one easy-to-use integrated application – providing your sales force with instant access to vital information.

In the office...

Increased control and visibility of your sales pipeline, and a 'live' view of sales activity, as it happens; Improving sales team collaboration, and delivering better performance from employees on the front line.

In your hands...

Imagine being able to carry all the information you need to view, update and arm yourself for your next meeting. GoldMine Mobile Edition enables you to start on the right foot, gaining the competitive advantage you need to close more deals

- **Empower your sales team with mobile access** – Today's tough sales environment favors those who tightly track their activities and are quick to respond to hot leads and opportunities. Having the right information in the palm of your hand puts you in control
- **Lose that 'synching' feeling** – Real time access, regardless of network connectivity, negates the need to synchronize at the end of the day, improving work-life balance

On the move...

In the office...

In your hands...

- **Improve your sales performance** – Real time information increases sales agility. Improve overall sales efficiencies by providing users with contact and sales information at their fingertips
- **Work more efficiently by managing your calendar on the go** – Using the GoldMine Mobile Edition calendar feature you can plan your schedule, and access/update your activity list on the move
- **Streamline communications with contacts via up to date information at your fingertips** – Addresses, phone numbers, e-mails and URL addresses for all of your contacts enables users to make the best use of their time away from their desks
- **Improve sales collaboration** – Goldmine Mobile Edition is integrated with your Blackberry email, so colleagues back in the office can view your customer communications instantly
- **Produce real-time forecasting information** – Gather the most recently updated sales data available from the field, providing you with a current snapshot for analysis and action

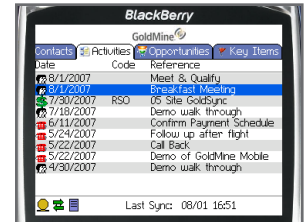

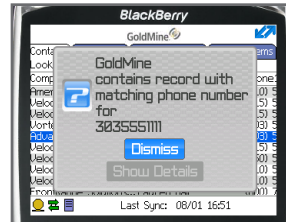

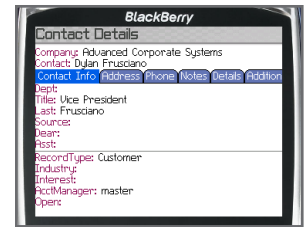

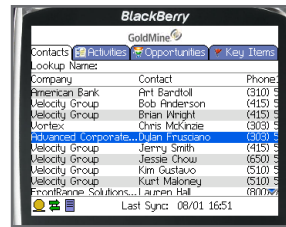

Over 1.7 million seats sold ...50% of the FORTUNE 500®
76% of the FTSE 100...More than 80 vertical markets in over 40 countries

* Across the FrontRange Solutions product range.

- **Real-Time Wireless Synch** – Configurable Real-Time synch capabilities remove the dependency on wireless connectivity to access your data
- **Security** – Full end to end security. All data is encrypted locally, and when sent over the air. Plus, additional Lease Key security goes a step further, ensuring if a device is lost or stolen there is no danger to corporate data.
- **View and edit information** – Everything you need for your contacts including addresses, telephone numbers, e-mail addresses and those special details which build relationships
- **Log contacts and track activities** – Attach time-stamped notes of phone conversations, meetings and ideas, then view contact histories and activities
- **Manage opportunities** – Help identify opportunities, increase sales productivity and drive additional revenue
- **Task views** – See all of your calls, meetings and to-do entries in your activities list
- **Calendar viewing options** – View your calendar daily, weekly or go straight to any specific date and drill down into the linked contact record
- **Search made simple** – Search by company, contact name, status or other fields, just by typing in a few letters
- **Configurability** – Easy configuration options that allow for settings of records and even fields available on the mobile device

GoldMine Solutions...

GoldMine® provides top-selling, award-winning customer relationship management for teams, specifically designed to bridge the gap between traditional contact management and complex CRM solutions. These affordable software offerings enable you to automate sales, marketing and service operations while utilizing powerful features that help you centralize all of your customer and prospect information and share important data with your team.
